

# December Healthy Family Outdoor Challenge!

Travel to the *Cox Hall Creek WMA, Brendan T. Byrne State Forest*, or a local green space, and try to find something that fits into each winter holiday-themed categories. Remember not to collect anything that is still living. They can still be counted in your scavenger hunt but we want to leave them where we found them, so take a photo instead!

## ***Can you find...***

- An American holly tree?
- Red berries?
- Animal tracks?
- Animal nests left over from spring?
- A cool winter pattern? (i.e. frost, ice, veins of a leaf, snowflake)
- A leaf or branch with a wasp gall on it?
- A pair of mourning doves?
- An evergreen tree?
- Your breath?
- A frozen vernal pool?
- Ducks that are overwintering?
- A tree that has lost all of its leaves?
- A pinecone?
- An NJ reindeer? (AKA a white-tailed deer)

***Share what you find by tagging Cape May 4-H on fb, and use the hashtag #4hfamiliesoutdoors.***
